

## **2 – PAPER & CARD CUTDOWN**

**00:00 – 00:03** Have you ever wondered what happens to all the paper and card you recycle?

**00:04 – 00:06** Where it's taken, and what it's turned into?

**00:06 – 00:09** You have? Great! Let's go and find out.

**00:11– 00:12** Mmmm, nice jumper!

**00:13 – 00:19** The cardboard delivery box you put in your wheelie bin along with newspapers, card, envelopes and paper stays nice and dry.

**00:20 – 00:26** It's collected every 2-weeks, and stored at one of four locations, before heading off to UK paper mills like this one in North Wales.

**00:27 – 00:33** Here, it's washed to remove inks, staples and glue, and then mixed with water to create a slurry.

**00:34 – 00:39** By adding different materials to this slurry, a variety of paper-based products can be created.

**00:40 – 00:49** So, all your used paper and cardboard is recycled into - yes, you've guessed it - new newspapers, cardboard boxes and other paper products too.

**00:49 – 00:51** Nice shoes! They'll go well with the jumper.

**00:52 – 00:56** So you see, we do some pretty amazing stuff with your paper and card recycling.

**00:57 – 00:58** But without you, none of this could happen.

**00:59 – 01:01** Thank you for helping us recycle more, and waste less.
